This Guest Editorial is brought to you for free and open access by the MAHE Journals at Impressions@MAHE. It has been accepted for inclusion in Manipal Journal of Nursing and Health Sciences by an authorized editor of Impressions@MAHE. For more information, please contact impressions@manipal.edu.

At the outset, let me congratulate the College of Nursing for bringing out the second edition of Manipal Journal of Nursing and Health Sciences. The faculty members who have taken the initiative must be specially appreciated.

In every field of science, the research work is going on in leaps and bounds. The student and faculty population must be exposed to the latest information in the subjects. I wish the editorial board would select such articles that are relevant and useful to the students and the faculty population not only of the campus but also of people at large.

I have gone through the articles published in the second issue. Articles are of good standard, relevant and encouraging for the young professionals to continue to do good research work.

Dr P Laxminarayana Rao

Registrar Evaluation,

Manipal University/Professor of Physiology
