ACKNOWLEDGMENTS

The journey of reaching the culmination of my dissertation has been a long but a rewarding one. I can say with certainty that the learnings that I take away from this process will stay with me. It is only fitting that I express my sincerest gratitude to the people who helped me throughout the course of my thesis. First, I would like to sincerely thank my guide, Ms. Indu Toby for being a constant source of support and for providing reassurance each step of the way.

I am grateful to Dr. Sebastian Padickparambil, Head of Department of Clinical Psychology at Manipal Academy of Higher Education and all the other members of the staff for providing me with an opportunity to conduct this research. I would like to thank the Institutional Research Committee and Institutional Ethics Committee for their inputs and feedbacks.

I would like to thank my parents, Prakash and Jyoti, for their endless support and patience. I would also like to thank my siblings, Bhumika and Krishna for lightening my load and reminding me of all that is funny in this world.

I would like to thank my friend, Shreya for being a constant source of comfort and a provider of endless solutions through the ups and downs. I would like to thank my friend, Purvi for keeping me grounded and showing me the brighter side of things through the process. I would also like to thank all the artists and T.V. shows that kept me company through their art.

Finally, I would like to thank all my participants for taking out the time to participate in my study and trusting me with their responses. This study is, because you are. I sincerely thank you for participating.

Tanishka Israni

LIST OF TABLES

Table No.	Description	Page No.
5.1	Mean and Standard Deviation for Passive Social Network Site Use Questionnaire, Iowa Netherlands Comparison Orientation Measure (INCOM) and Self-concept Clarity Scale (SCCS)	22-23
5.2	Pearson's correlation between Passive Social Network Site (PSNS) Use Questionnaire, Iowa- Netherlands Comparison Orientation Measure (INCOM) and Self-Concept Clarity Scale (SCCS).	23-24
5.3	Multivariate regression of the variables (Self-concept clarity and Passive social network site use) predicting Social comparison	25-26
5.4	Multivariate tests of the variables	27-28
5.5	Tests of between-subjects effects	28-29

LIST OF FIGURES

Figure No.	Description	Page No.
5.1	Graphical Representation of Gender of the Participants in the Study	21
5.2	Graphical Representation of Social network sites used by Participants in the Study	22
5.3	Scatter Plot of correlation between Passive Social Network Site Use Questionnaire, Iowa- Netherlands Comparison Orientation Measure (INCOM), Self- Concept Clarity Scale (SCCS)	25

LIST OF ABBREVIATIONS

Abbreviations	Definitions
SNS	Social network sites
PSNS	Passive Social Network Site Use
SC	Social Comparison
SCC	Self-concept clarity
INCOM	Iowa- Netherlands Comparison Orientation Measure
SCCS	Self-concept clarity scale
